Robotics & Artificial Intelligence

1st International Autumn School (RobIA'25) | October 6th - 9th, 2025, Guelma, Algeria

Honorary & Co-honorary chairs

- Pr. Salah ELLAGOUNE, Rector of Guelma University.
- Pr. Nabil KRIBES, Dean of the Faculty of Science and Technology.

General chairs

- Pr. Chemesse Ennehar BENCHERJET.
- Pr. Abdenour HADID.
- Dr. Nida MEDDOURI.

Objective

RobIA'2025, organized by the LAIG Laboratory, promotes interdisciplinary collaboration in robotics and artificial intelligence. This school will cover advanced topics including machine learning, AI, 3D vision, and image processing. Participants will explore autonomous robotics, intelligent perception, and human-robot interaction. Special focus will be given to micro-robotics and bio-inspired design. The event includes hands-on workshops, plenary sessions, and applied research discussions. A doctoral symposium, organized by the GT GAST team (France), will support early-career researchers. Participants will engage with experts and receive valuable feedback. RobIA'2025 offers a unique opportunity to build strong international research networks.
